PostScript To PDF

Version May 18, 2006

File Features

compress pages	yes	no	
use flate compression	yes	no	
ASCII file format	yes	no	
optimize file	yes	no	
thumbnails	yes	no	
auto rotate pages	none	all	mixed
binding	left	right	
compatibility level	1.1 1.2 1.3 1.4		

first page to convert 1–10000
last page to convert 1–10000

conversion method   as-is   bounded   cropped

extra offset in bp   0–100

Image Handling

encode color images	yes	no	
encode gray images	yes	no	
encode mono images	yes	no	
downsample color images	yes	no	
downsample gray images	yes	no	
downsample mono images	yes	no	
anti-alias color images	yes	no	
anti-alias gray images	yes	no	
anti-alias mono images	yes	no	
auto filter color images	yes	no	
auto filter gray images	yes	no	
auto position EPS files	yes	no	
convert blends to shadings	yes	no	
color conversion strategy	unchanged	srgb	independent

Bitmap Compression

color image resolution   72–2400
gray image resolution   72–2400
mono image resolution   72–2400
	auto	1	2	4	8
color image depth	auto	1	2	4	8
gray image depth	auto	1	2	4	8
mono image depth	auto	1			

	auto			
color filter	auto	ZIP	DCT	
gray filter	auto	ZIP	DCT	
mono filter	auto	ZIP	FAX	RLE

	auto	1.5	2	4
color downsample threshold	auto	1.5	2	4
gray downsample threshold	auto	1.5	2	4
mono downsample threshold	auto	1.5	2	4

	auto	average	bicubic	subsample
color downsample type	auto	average	bicubic	subsample
gray downsample type	auto	average	bicubic	subsample
mono downsample type	auto	average	bicubic	subsample

FONT EMBEDDING

embed all fonts   yes   no
subset fonts   yes   no

subset threshold   [   ]   1–100

General Options

create job ticket	yes	no
parse DSC comments	yes	no
parse DSC document info	yes	no
preserve copy page	yes	no
preserve EPS info	yes	no
preserve halftone info	yes	no
preserve OPI comments	yes	no
preserve overprint settings	yes	no

Useful Presets

Default: These settings are suitable for most situations. Use these if you feel unsure about all those settings.

Screen: If you want to post an efficient file on the internet, you can consider this setting. But beware, downsampling your graphics may not be that good an idea if you want quality documents.

Print: If you don't like the defaults but want to be sure that your document looks acceptable when printed, you can consider these settings.
